

Christmas Greetings

In the midst of this negative world, it is comforting to be part of a warm and loving family. We are blessed and thankful. The air in 'this ol' house' is already charged with electricity as we anticipate the presence of each person whose face appears on our Wreath Collage. The rafters will be ringing as all 21 of us gather together, then creating a "Personality Amalgamated", the likes of which has never before been experienced!! We are all busily and happily struggling with this thing called "Life". The grandkids seem to be growing up too quickly, but becoming pleasant, caring young people in the process. Observe Don pictured here with the home which should belong to him...and the bank... before Christmas!! Please notice the "Indomitable Grass", our beautiful and tireless flower gardener!! We're featuring as well "A View from Our Pier" in Virginia!! In addition, we are thankful for you, our "Kid and Kinsfolk", who never cease to enrich our lives with the ongoing gift of "yourselves". We truly love you for that.

We all pray for world peace, yet know the only "lasting peace" can come through the love of God in our hearts.... and that is our wish for you. Enjoy a happy, holy Christmas.

Bette and Carl - 1990-
